## *Our Location*

Trout River Falls was established in the later part of 2003. This beautiful farm called Klipsteen situated amongst the beautiful valleys of the misty Steenkampsberg Mountains in Mpumalanga was developed to its full potential. "A beautiful Trout Fishing Country Lodge"

Trout River Falls is surrounded by indigenous forests, awe inspiring waterfall and amazing bird life that will set the ambiance and leave guests totally relaxed and at peace in the tranquility of nature.

The country lodge is situated in a Malaria-Bilharzia free area with a mild climate and is conveniently located as an overnight stop to the Kruger National Park and other destinations in the low-veld region.

We have recently been awarded a four star rating from the tourism Grading Council of South Africa. A true reflection of the owner and the experienced staff of Trout River Falls commitment to service excellence.
